

Winners Call #2 BlaumannFoundation

Name	Project
Del Santo Flavio	Workshop Kefalonia on Theoretical and Conceptual Foundations of Quantum Physics
Hackl Lucas	QISS spring school
Loveridge Leon	Foundations of Physics Under the Midnight Sun
Di Biagio Andrea	EmerGE program: A multidisciplinary approach to emergent space-time
Kumar Rishabh	Weekly school on quantum gravity at the QISS
Speziale Simone	Workshop Peyresq Physics '23
Pan Qiaoyin	Spinfoam Model with A Cosmological Constant
Theofilis Charalampos	Investigations in Black Hole to White Hole physics
Borissova Johanna	Probing consequences of an extended configuration space for gravity
Bengyat Ofek	Gravity Induced Entanglement (GIE)
Kabel Viktoria	Nature of spacetime beyond the classical regime
Song Shicon	Ashtekar variable and Loop Quantum Cosmology
Fullwood James	Space and time symmetry in quantum theory
Magalhaes Nadja	Workshop "On motion, time and gravity"
Brahma Suddhasattwa	Black Holes in Loop Quantum Gravity
Surya Sumati	Covariance and Causality in Discrete Quantum Gravity
